CONTENTS OF VOLUME 346

January 1984

DAWES G.S. Review Lecture: The central control of fetal breathing and skeletal muscle movements. 1

BROUGHTON PIPKIN Fiona, TURNER S.R. & WALLACE Carol The effect of saralasin in the chronically cannulated ewe in the early puerperium. 19

HARRIS Kristen M. & TEYLER Timothy J. Developmental onset of long-term potentiation in area CA1 of the rat hippocampus. 27

FORSLING Mary L. & WILLIAMS H. Central effects of dopamine on vasopressin release in the normally hydrated and water-loaded rat. 49

EDMONDS C.J. & MACKENZIE Jennifer Amiloride sensitive and insensitive sodium pathways and the cellular sodium transport pool of colonic epithelium in rats. 61

BESSOU P., JOFFROY M., MONTOYA R. & PAGÈS B. Effects of triceps stretch by ankle flexion on intact afferents and efferents of gastrocnemius in the decerebrate cat. 73

GRASL Markus & TURNHEIM Klaus Stimulation of electrolyte secretion in rabbit colon by adenosine. 93

CREPEL Francis, DUPONT Jean-Luc & GARDETTE Robert Selective absence of calcium spikes in Purkinje cells of *staggerer* mutant mice in cerebellar slices maintained *in vitro*. 111

WANG Ging Kuo Irreversible modification of sodium channel inactivation in toad myelinated nerve fibres by the oxidant chloramine-T. 127

EVANS M.G. & THOMAS R.C. Acid influx into snail neurones caused by reversal of the normal pH_i-regulating system. 143

GODAUX E. & VANDERKELEN B. Vestibulo-ocular reflex, optokinetic response and their interactions in the cerebellectomized cat. 155

AL-OMAR AZZAWI S. & SHIRLEY D.G. Renal blood flow and its distribution following haemorrhage in the rat: the role of vasopressin. 171

CHOW Ida & POO Mu-Ming Formation of electrical coupling between embryonic *Xenopus* muscle cells in culture. 181

GRIMBY Lennart Firing properties of single human motor units during locomotion. 195

MURASE K. & RANDIĆ Mirjana Actions of substance P on rat spinal dorsal horn neurones. 203

JENSEN Jørgen, NØRBY Jens G. & OTTOLENGHI Paul Binding of sodium and potassium to the sodium pump of pig kidney evaluated from nucleotide-binding behaviour. 219

SILINSKY E.M. On the mechanism by which adenosine receptor activation inhibits the release of acetylcholine from motor nerve endings. 243

AUGUSTINE George J. & ECKERT Roger Divalent cations differentially support transmitter release at the squid giant synapse. 257

COUTURE Réjean & CUELLO A. Claudio Studies on the trigeminal antidromic vasodilatation and plasma extravasation in the rat. 273

SATCHELL Paul M. Canine oesophageal mechanoreceptors. 287

KAWA Kazuyoshi & ROPER Stephen On the two subdivisions and intrinsic synaptic connexions in the submandibular ganglion of the rat. 301

EUSEBI Fabrizio, PASETTO Nino & SIRACUSA Gregorio Acetylcholine receptors in human oocytes. 321

GAGE Peter W. & WACHTEL Ruth E. Some effects of procaine at the toad end-plate are not consistent with a simple channel-blocking model. 331

DECORTE Laurence, EMONET-DÉNAND Françoise, HARKER D.W., JAMI Léna & LAPORTE Y. Glycogen depletion elicited in tenuissimus intrafusal muscle fibres by stimulation of static γ-axons in the cat. 341

KELLY S.S. & ROBBINS N. Bimodal miniature and evoked end-plate potentials in adult mouse neuromuscular junctions. 353

ELZINGA G., LANGEWOUTERS G.J., WESTERHOF N. & WIECHMANN A.H.C.A. Oxygen uptake of frog skeletal muscle fibres following tetantic contractions at 18 °C. 365

GREGORY P.C. Control of intrinsic reticulo-ruminal motility in the vagotomized sheep. 379

DEWITT Linda M. & PUTNEY JR James W. α-Adrenergic stimulation of potassium efflux in guinea-pig hepatocytes may involve calcium influx and calcium release. 395

BARNETT S.A. & DICKSON R.G. Milk production and consumption and growth of young of wild mice after ten generations in a cold environment. 409

MCLAUGHLIN Charles W. Effects of hormonal and electrical stimulation of sodium transport on metabolism of toad urinary bladder. 419

HEATH M.F. & JACOBSON W. The effect of components of rabbit pulmonary surfactant on the activity of phospholipases. 439

SHEPHARD Kerry L. The influence of mucus on the diffusion of chloride ions across the oesophagus of the minnow (*Phoxinus phoxinus* (L.)). 449

BOUVIER M. & GRIMAUD J.C. Neuronally mediated interactions between urinary bladder and internal anal sphincter motility in the cat. 461

ARMSTRONG D.M. & DREW T. Discharges of pyramidal tract and other motor cortical neurones during locomotion in the cat. 471

ARMSTRONG D.M. & DREW T. Locomotor-related neuronal discharges in cat motor cortex compared with peripheral receptive fields and evoked movements. 497

BLOOM S.R., EDWARDS A.V. & GHATEI M.A. Neuroendocrine responses to stimulation of the splanchnic nerves in bursts in the conscious adrenalectomized calf. 519

BLOOM S.R. & EDWARDS A.V. Characteristics of the neuroendocrine responses to stimulation of the splanchnic nerves in bursts in the conscious calf. 533

BLOOM S.R., EDWARDS A.V. & GHATEI M.A. Effects of certain metabolites on pancreatic endocrine responses to gastrin-releasing peptide in conscious calves. 547

LAMB T.D. Effects of temperature changes on toad rod photocurrents. 557

DAWES C. Stimulus effects on protein and electrolyte concentrations in parotid saliva. 579

MEKATA F. Different electrical responses of outer and inner muscle of rabbit carotid artery to noradrenaline and nerves. 589

METZGER P. & WEINGART R. Electric current flow in a two-cell preparation from *Chironomus* salivary glands. 599

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

23–24 *September* 1983

Edinburgh University Meeting

DEMONSTRATIONS

Lowe D.A. & Russell I.J. Axon trajectories of *Xenopus* mesencephalic Vth neurones are related to soma position. 2*P*

Russell J.A. Precise measurement by image-shearing of nucleolar size in immunocytochemically identified peptidergic neurones. 3*P*

Dutia M.B., Hunter M.J. & Lakie M. A computer based system for the study of reflexes evoked by natural vestibular stimulation in the decerebrate cat. 4*P*

Higgins M.J., Kelly P.A. & Ribchester R.R. Innervation of extensor digiti IV brevis muscle of the frog by motor axons in separate branches of the peroneal nerve. 5*P*

Lakie M., Walsh E.G. & Wright G.W. Passive wrist movements – thixotrophy – measurement of memory time. 6*P*

Hunter M.J. A microspectrophotometer for recording optical absorbance spectra of intracellular indicator dyes within mammalian cells *in vitro*. 7*P*

Young Sheila The use of miniature pressure transducers for the measurement of thoracic, abdominal and oropharyngeal pressures during coughing and speech. 8*P*

Young Sheila A video demonstration of the muscle patterns in human forced expiration and coughing. 9*P*

Young Sheila & Connell Lynne A. A nosepiece for the neglected nose. 10*P*

Andrews P.L.R., Harris P.J. & Mackay T.W. Recordings of neural activity in the 'direct renal nerve' of the anaesthetised ferret. 11*P*

Andrews P.L.R. & Lawes I.N.C. A stereotaxic atlas of the ferret brain: a demonstration of some problems. 12*P*

Packard A. Trajectory and form separately perceived during saccadic eye movements: the Ginsborg–Maurice effect revisited. 13*P*

Cooksey Elizabeth J., Findlater G.S. & Iggo A. A limb perfusion preparation allowing manipulation of the internal and external environment of cutaneous receptors of the cat. 14*P*

Houchin Jane Tracing neuronal structures in 3D. 15*P*

Chatamra K., Daniel P.M. & Lam D.K.C. A method for obtaining blood from the hepatic veins of the rat. 16*P*
